Additional Discussions

Criteria for Sample Testing

The updated letter from Board Member Maurath to manufacturers and dealers was presented for discussion. The Board voted unanimously to approve the letter and agreed the letter was ready for dissemination.

In a related matter, the current requirement for FATMU to fire a full magazine when testing firearms (established in the SOP between P&R and FSD) came into question again. The Board decided to table this matter until the next meeting to allow for all members to have time for further consideration and comment. This matter did not come up for vote. No action taken at this time.

Petitions

There was a suggestion that manufacturers should be required to provide the suggested retail price with the submitted petitions. This matter did not come up for vote. No action taken at this time.
